

Comprehensive preparation and study software for the Inspection Authorization FAA Knowledge Exam.

All Inspection Authorization candidates must take and pass the FAA's IA Knowledge Exam. This software provides all the information needed to pass the IA Knowledge test, and helps candidates become familiar with the privileges and limitations of this highest level of maintenance certification. Includes an overview of the Inspection Authorization certificate, insights into the function of an IA (the inspections, authorizations, and paperwork that accompany the privileges), and excerpts of the FAA documents IAs rely on in their job. The software includes

more than 400 example FAA questions and answer choices, supported with comprehensive explanations. The same reference material applicants will have access to during the real test is included as a PDF so applicants can become familiar with these documents and learn how to glean the information they need to answer the FAA Questions, including Airworthiness Directives, Advisory Circulars, Type Certificate Data Sheets, FAA Order 8130.21D, and FAA Form 8130-3.
