

ASA's newest DVD ground school, Helicopter Fundamentals, guides viewers through the important concepts and vagaries of helicopter flight. This award-winning production makes explanations come to life with in-flight demonstrations and the latest 3D animated graphics. Aerodynamics are covered in detail from retreating blade stall to autorotation. Cockpit point-of-view footage helps viewers experience maneuvers from the pilot's perspective.

Helicopter Fundamentals supplements the airplane Virtual Test Prep ground school courses. Complete both the airplane and helicopter courses to prepare for private pilot, instrument rating, commercial pilot, or flight instructor (CFI) FAA Knowledge Exams. Used

together, the courses provide everything needed to ace the Helicopter FAA Knowledge Exam.

The Virtual Test Prep DVD Ground School Series provides a comprehensive aviation ground school to prepare pilots for the FAA Knowledge Exam and help them become better, safer pilots.

Over 3,500 Powerpoint slides from the Private, Instrument, Commercial, CFI, and Flight Instructor Refresher Clinic (FIRC) Virtual Test Prep courses.

This is a comprehensive 4-CD-ROM set with slides of the graphics used throughout the Virtual Test Prep series, allowing you to add professionalism, organization, and clarity to your classroom presentations with these Powerpoint slideshows and animated graphics. The slides are categorized and labeled to make them easy to identify for the course and

lesson you want to use. The graphics can be viewed from the CD as a slideshow, or you can use individual slides in your own presentation.
