2635 Cunningham Ave Ste A — San Jose CA 95148
408.923.2625 TEL - 408.929.3726 FAX

REPAIR. A Work Order estimate of the parts, labor and functional test will be faxed to your office for approval prior to any work performed. Repairs are generally completed within 7-10 business days. Should your mask fail the functional test, an overhaul will be required. A revised Work Order will be faxed to your offices for approval prior to any additional work being performed.

OVERHAUL/RECERTIFICATION. A Work Order estimate of the parts, labor, overhaul kit and functional test will be faxed to your offices for approval prior to any work performed. Overhaul and recertification is generally completed within 7-10 business days. Overhaul costs are generally \$1300 labor plus parts—depending on the mask's condition. An overhaul includes repairs and recertification; the entire unit is disassembled and gone thru from head to toe.

FUNCTIONAL TEST: A functional test— which identifies leaks or blockages not seen by the naked eye— **must be performed** prior to the issuance of FAA paperwork for both mask repairs and mask overhauls. Only occasionally are additional parts needed in addition to those in the original work order; if this should occur, a revised work order will be faxed to your office for approval prior to any further work being performed

NOTE: Should you decide to have the mask scrapped or returned without completion of the Work Order(s), there will be an evaluation/scrapping fee.

THE UNDERSIGNED IS AUTHORIZED AND APPROVES OF THE ABOVE PROCEDURES FOR THE FOLLOWING MASK:

Signature	Print Name	Date
Street Address	City	ST ZIP
